Summary

Bachelor of Information Management student with a strong focus on data analysis and web technologies. Proven track record in financial management and technical collaboration. Proficient in Python, Java, and Machine Learning frameworks, eager to contribute to data-driven projects.

Skills

Programming: Python (NumPy, Pandas, Scikit-learn), Java, Spring Boot, RESTful APIs
Databases: MySQL, MongoDB
Tools: Git, GitHub, Tally Prime, Microsoft Excel
Technical: Data Structures, MERN Stack, Data Annotation
Soft Skills: Problem Solving, Team Collaboration, Financial Management, Communication

Experience

Java Intern — Legal Remit Nov 2025 – Dec 2025

- Developed and maintained RESTful services and backend logic using Spring Boot and Java.
- Collaborated on API design to improve system modularity and performance.

Data Annotator — Accelerated Komputing Oct 2025 – Dec 2025

- Annotated high-precision 3D dental scans to train machine learning models.
- Conducted quality assurance checks to ensure dataset integrity for model accuracy.

Finance Supervisor — Skyline Travel and Tours Pvt. Ltd. Nov 2022 – Oct 2024

- Managed comprehensive financial and VAT records using Tally Prime and Excel.
- Streamlined transaction processes by collaborating with cross-functional departments.

Teacher (Part-time) — Densh Secondary School Jan 2025 – Mar 2025

- Instructed students in Mathematics and Science, simplifying complex technical concepts.

Education

Bachelor of Information Management — Tribhuvan University Mar 2022 – Present

Relevant Coursework: Java OOP, Data Structures, DBMS, AI, Data Mining, Python.

+2 Science — Sukuna Multiple Campus 2019 – 2021

Projects

E-commerce Platform (MERN Stack)

- Developed a full-stack inventory and order management system for retail operations.
- **GitHub:** github.com/khatiwadaprajwal/Project

AI/ML Workshop — Collabyte 2024

- Gained hands-on experience with industry-standard ML frameworks and deployment practices.
